Field Crops Research, 26 (1991) 387–389
Elsevier Science Publishers B.V., Amsterdam

Author Index

Abrol, I.P., *see* Singh, G. et al.
Bacon, P.E.
Management strategies for maintaining rice yield within rice-based cropping systems ... 315
Bagnall, D.J. and King, R.W.
Response of peanut (*Arachis hypogaea*) to temperature, photoperiod and irradiance.
1. Effect on flowering 263
2. Effect of peg and pod development 277
Belford, R.K. and Sedgley, R.H.
Ideotypes and physiology: Tailoring plants for increased production (Conclusions) 221
Bidinger, F.R., *see* Seetharama, N. et al.
Bouniols, A., Cabelguenne, M., Jones, C.A., Chalamet, A., Charpenteau, J.L. and Marty, J.R.
Simulation of soybean nitrogen nutrition for a silty clay soil in southern France 19
Cabelguenne, M., *see* Bouniols, A. et al.
Carter, C.E., *see* Richard, E.P., Jr. et al.
Chalamet, A., *see* Bouniols, A. et al.
Charpenteau, J.L., *see* Bouniols, A. et al.
Cheema, S.S., *see* Singh, G. et al.
Clark, R.B., *see* Flores, C.I. et al.
Connor, D.J., *see* Sadras, V.O. and Connor, D.J.
Danso, S.K.A., *see* Materon, L.A. and Danso, S.K.A.
De Datta, S.K., *see* Dingkuhn, M. et al.
Dingkuhn, M., Schnier, H.F., De Datta, S.K., Dorffling, K. and Javellana, C.
Relationships between ripening-phase productivity and crop duration, canopy photosynthesis and senescence in transplanted and direct-seeded lowland rice 327
Dorffling, K., *see* Dingkuhn, M. et al.
Dunckelman, J.W., *see* Richard, E.P. Jr. et al.
Flores, C.I., Clark, R.B. and Gourley, L.M.
Genotypic variation of pearl millet for growth and yield on acid soil 347
Gardner, C.O., *see* Wilhelm, W.W. et al.
Gill, K.S., *see* Seetharama, N. et al.
Gill, H.S., *see* Singh, G. et al.
Gourley, L.M., *see* Flores, C.I. et al.
Gravois, K.A., Milligan, S.B. and Martin, F.A.
Indirect selection for increased sucrose yield in early sugarcane testing stages 67
Haunold, E., *see* Soja, G. and Haunold, E.
Hinze, M.R., *see* Wilhelm, W.W. et al.
Howeler, R.H.
Long-term effect of cassava cultivation on soil productivity 1
Huda, A.K.S., *see* Seetharama, N. et al.
Imrie, B.C., *see* Lawn, R.J. and Imrie, B.C.
Jackson, M.T.
Book review of *The Uses of Plant Genetic Resources*, by A.H.D. Brown, O.H. Frankel, D.R. Marshall and J.T. Williams (Editors) 77

Javellana, C., *see* Dingkuhn, M. et al.
Jones, C.A., *see* Bouniols, A. et al.
King, R.W., *see* Bagnall, D.J. and King, R.W.
Kirkham, M.B.
Book review of *Drought Resistance in Cereals*, by F.W.B. Baker (Editor) 75
Lawn, R.J. and Imrie, B.C.
Crop improvement for tropical and subtropical Australia: Designing plants for difficult climates 113
Leidi, E.O., Nogales, R. and Lips, S.H.
Effect of salinity on cotton plants grown under nitrate or ammonium nutrition at different calcium levels 35
Linnemann, A.R.
Preliminary observations on photoperiod regulation of phenological development in bambara groundnut (*Vigna subterranea*) 295
Lips, S.H., *see* Leidi, E.O. et al.
Marshall, D.R.
Alternative approaches and perspectives in breeding for higher yields 171
Martin, F.A., *see* Gravois, K.A. et al.
Marty, J.R., *see* Bouniols, A. et al.
Materon, L.A. and Danso, S.K.A.
Nitrogen fixation in two annual *Medicago* legumes, as affected by inoculations and seed density 253
Milligan, S.B., *see* Gravois, K.A. et al.
Nogales, R., *see* Leidi, E.O. et al.
Rao, K.N., *see* Seetharama, N. et al.
Rasmusson, D.C.
A plant breeder's experience with ideotype breeding 191
Razzouk, S. and Whittington, W.J.
Effects of salinity on cotton yield and quality 305
Reddy, D.M., *see* Seetharama, N. et al.
Richard, E.P. Jr., Dunckelman, J.W. and Carter, C.E.
Productivity of sugarcane on narrow rows, as affected by mechanical harvesting 375
Richards, R.A.
Crop improvement for temperate Australia: Future opportunities 141
Sachan, R.C., *see* Seetharama, N. et al.
Sadras, V.O. and Connor, D.J.
Physiological basis of the response of harvest index to the fraction of water transpired after anthesis: A simple model to estimate harvest index for determinate species 227
Schnier, H.F., *see* Dingkuhn, M. et al.
Sedgley, R.H.
An appraisal of the Donald ideotype after 21 years 93
see also Belford, R.K. and Sedgley, R.H.
Seetharama, N., Sachan, R.C., Huda, A.K.S., Gill, K.S., Rao, K.N., Bidinger, F.R. and Reddy, D.M.
Effect of pattern and severity of moisture-deficit stress on stalk-rot incidence in sorghum. II. Effect of source/sink relationships 355
Singh, G., Gill, H.S., Abrol, I.P. and Cheema, S.S.
Forage yield, mineral composition, nutrient cycling and ameliorating effects of Karnal grass (*Leptochloa fusca*) growth with mesquite (*Prosopis juliflora*) in a highly alkaline soil 45

Soja, G. and Haunold, E.
Leaf gas exchange and tuber yield in Jerusalem artichoke (*Helianthus tuberosus*) cultivars 241
Thurling, N.
Application of the ideotype concept in breeding for higher yield in the oilseed brassicas 201
Whittington, W.J., *see* Razzouk, S. and Whittington, W.J.
Wilhelm, W.W., Hinze, M.R. and Gardner, C.O.
Maize hybrid response to tillage under irrigated and dryland conditions 57

Subject Index

Alkalinity, *see* Soil conditions
Arachis
Response of peanut to temperature, photoperiod and irradiance
1. Effect of flowering 263
2. Effect of peg and pod development 279
Artichoke, *see Helianthus*
Bambara groundnut, *see Vigna*
Brassicas
Application of the ideotype concept in breeding for higher yield in the oilseed brassicas 201
Calcium, *see* Nutrient dynamics
Cassava, *see Manihot*
Cereals
Drought Resistance in Cereals (book review) 75
Cotton, *see Gossypium*
Drought, *see* Water regime
Environmental factors
Response of peanut to temperature, photoperiod and irradiance
1. Effect on flowering 263
2. Effect on peg and pod development 279
Observations on photoperiod regulation of phenological development in bambara groundnut 295
Gas exchange, *see* Physiology
Genetics
Genetic Resources (book review) 77
Genotype, *see* Variety trials
Glycine
Simulation of soybean nitrogen nutrition for a silty clay soil 19
Gossypium
Effects of salinity on cotton under nitrate or ammonium nutrition at different calcium levels 35
Effects of salinity on cotton 305
Harvest index
Response of harvest index to water transpired after anthesis: A simple model for determinate species 227
Harvesting, *see* Management techniques
Helianthus
Leaf gas exchange and tuber yield in Jerusalem artichoke 241

Ideotypes and physiology
An appraisal of the Donald ideotype after 21 years 93
Crop improvement for tropical and subtropical Australia: Designing plants for difficult climates 113
Crop improvement for temperate Australia: Future opportunities 141
Alternative approaches and perspectives in breeding for higher yields 171
A plant breeder's experience with ideotype breeding 191
Application of the ideotype concept in breeding for higher yield in the oilseed brassicas 201
Irradiance, *see* Environmental factors
Irrigation, *see* Water regime
Karnal grass, *see Leptochloa*
Leptochloa
Effects of Karnal grass grown with mesquite in a highly alkaline soil 45
Maize, *see Zea*
Management practices
Maize hybrid response to tillage under irrigated and dryland conditions 57
Management strategies for rice yield within rice-based cropping systems 315
Sugarcane on narrow rows, affected by mechanical harvesting 375
Manihot
Long-term effect of cassava cultivation on soil productivity 1
Medicago
Nitrogen fixation as affected by inoculation and seed density 253
Mesquite, *see Prosopis*
Millet, *see Pennisetum*
Minerals, *see* Nutrient dynamics
Modelling
Response of harvest index to water transpired after anthesis: A simple model for determinate species 227
Moisture stress, *see* Water regime
Nitrogen fixation, *see* Nutrient dynamics
Nutrient dynamics
Effect of salinity on cotton under nitrate or ammonium nutrition at different calcium levels 35
Effects of Karnal grass grown with mesquite in a highly alkaline soil 45
Nitrogen fixation in *Medicago*, as affected by inoculation and seed density 253
Oryza
Management strategies for rice yield within rice-based cropping systems 315
Ripening-phase productivity and crop duration, canopy photosynthesis and senescence in lowland rice 327
Peanut, *see Arachis*
Pennisetum
Genotypic variation of pearl millet on acid soil 347
Photoperiod, *see* Environmental factors
Physiology
Leaf gas exchange and tuber yield in Jerusalem artichoke 241
Productivity
Indirect selection for increased sucrose yield in early sugarcane testing stages 67
Crop improvement for tropical and subtropical Australia: Designing plants for difficult climates 113
Crop improvement for temperate Australia: Future opportunities 141
Alternative approaches and perspectives in breeding for higher yields 171

Application of the ideotype concept in breeding for higher yield in the oilseed brassicas 201
Leaf gas exchange and tuber yield in Jerusalem artichoke 241
Prosopis
Effects of Karnal grass grown with mesquite in a highly alkaline soil 45
Rice, *see Oryza*
Row-spacing, *see* Management techniques
Saccharum
Indirect selection for increased sucrose yield in early sugarcane testing stages 67
Sugarcane on narrow rows, affected by mechanical harvesting 377
Salinity, *see* Soil conditions
Selection, *see* Variety trials
Soil conditions
Long-term effect of cassava cultivation on soil productivity 1
Simulation of soybean nitrogen nutrition for a silty clay soil 19
Effect of salinity on cotton under nitrate or ammonium nutrition at different calcium levels 35
Effects of Karnal grass grown with mesquite in a highly alkaline soil 45
Effects of salinity on cotton 305
Genotypic variation of pearl millet on acid soil 347
Sorghum
Moisture-deficit stress on stalk-rot in sorghum. II. Effect of source/sink relationships ... 355
Soybean, *see Glycine*
Stubble management, *see* Management techniques
Sugar cane, *see Saccharum*
Temperature, *see* Environmental factors
Tillage, *see* Management practices
Variety trials
Indirect selection for increased sucrose yield in early sugarcane testing stages 67
Leaf gas exchange and tuber yield in Jerusalem artichoke 241
Response of peanut to temperature, photoperiod and irradiance.
1. Effect on flowering 263
2. Effect on peg and pod development 279
Observations on photoperiod regulation of phenological development in bambara groundnut 295
Effects of salinity on cotton 305
Genotypic variation of pearl millet on acid soil 347
Vigna
Observations on photoperiod regulation of phenological development in bambara groundnut 295
Water regime
Maize hybrid response to tillage under irrigated and dryland conditions 57
Drought Resistance in Cereals (book review) 75
Response of harvest index to water transpired after anthesis: A simple model for determinate species 227
Moisture-deficit stress on stalk-rot in sorghum. II. Effect of source/sink relationships ... 355
Yield increase, *see* Productivity
Zea
Maize hybrid response to tillage under irrigated and dryland conditions 57
